

Livable Roanoke Valley: Natural Assets

Dan Cohen

Environmental Studies Lecturer/

Cenergistic Energy Specialist

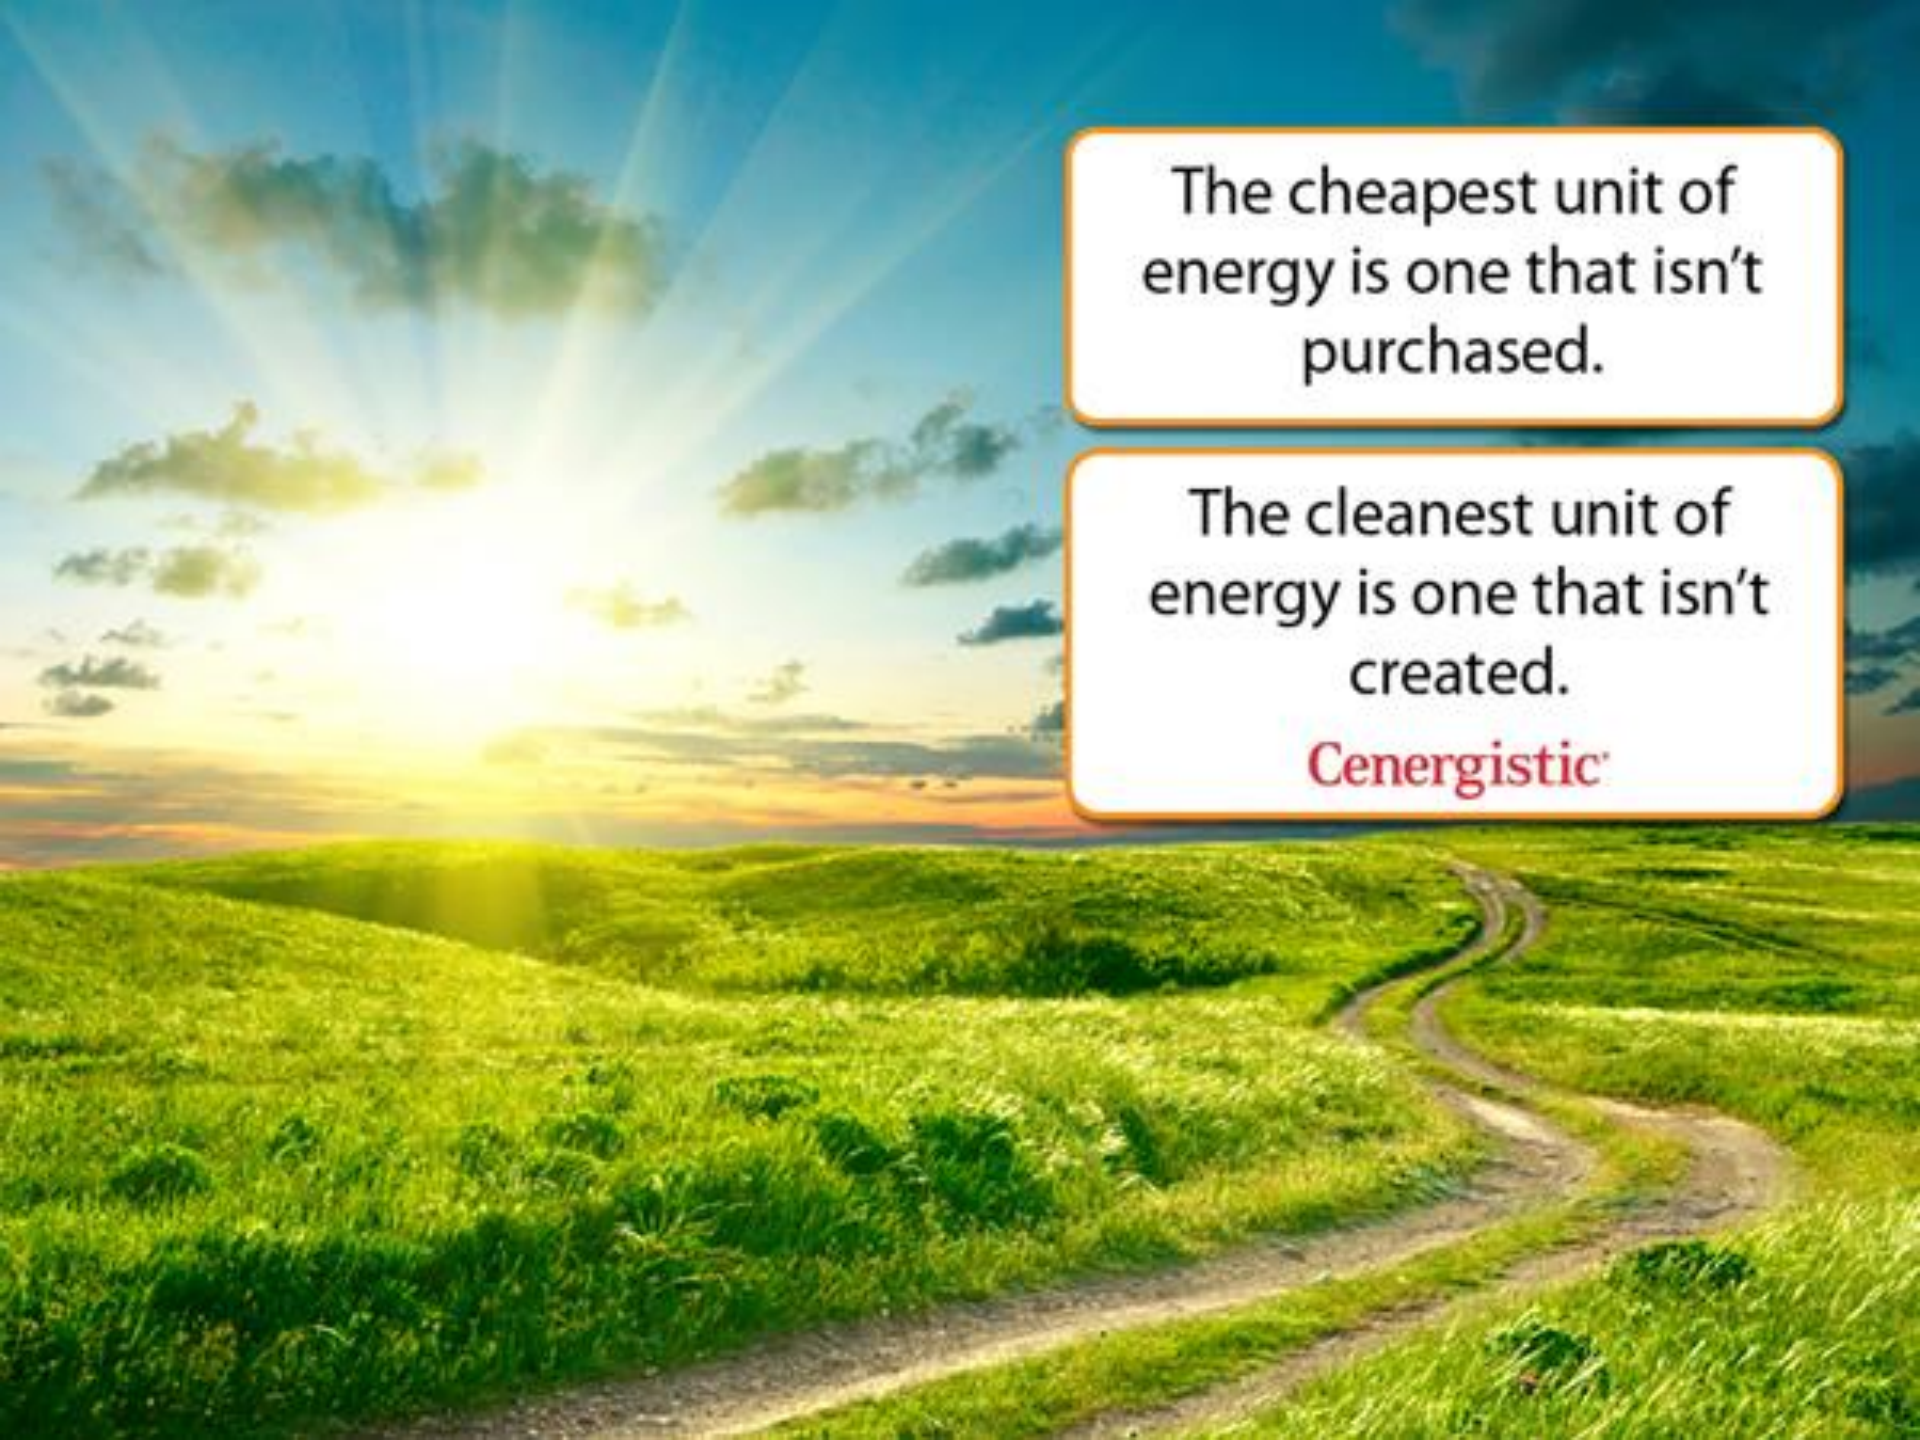

Roanoke Valley Natural Assets: Examples from our Community

Goal: Work collaboratively to preserve the historic, cultural, and natural assets of the region.

IT'S A PROGRAM ON CONSERVING ENERGY.

The cheapest unit of energy is one that isn't purchased.

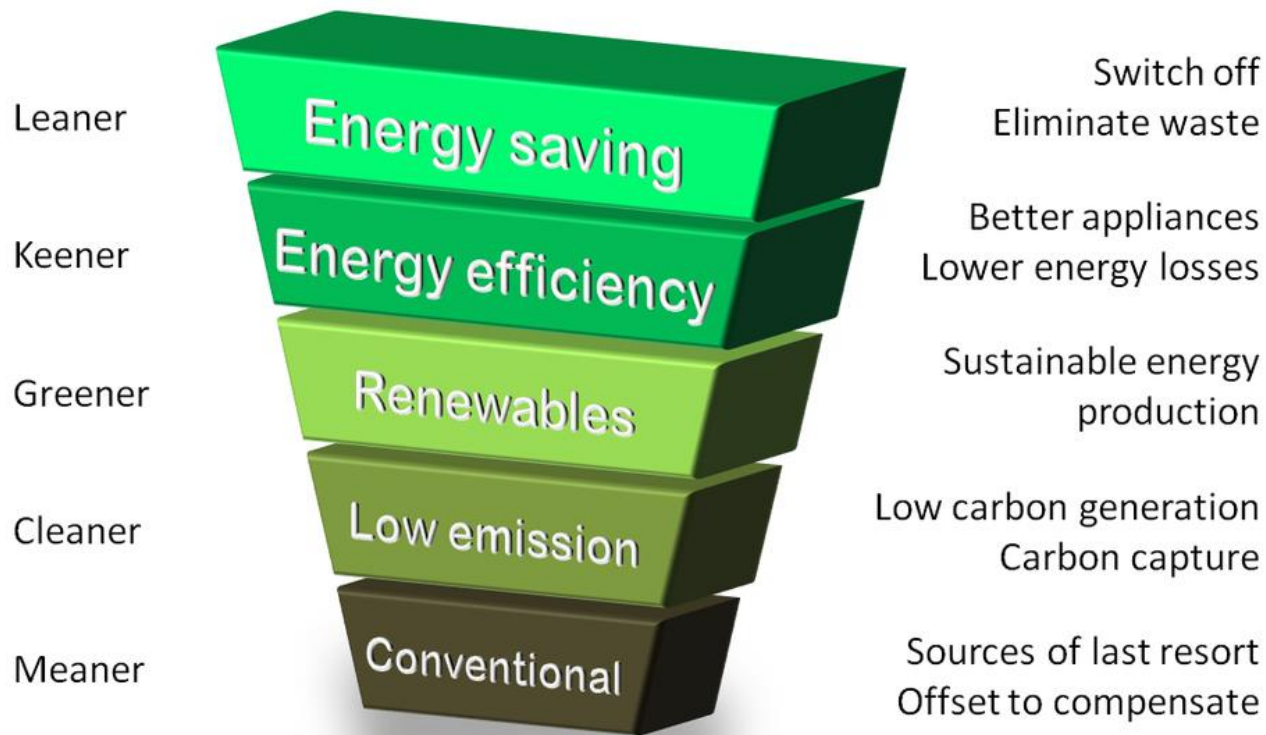

The cleanest unit of energy is one that isn't created.

Cenergistic'

Purpose of the Energy Conservation Program

- Maintain and improve comfort and safety
- Create a positive educational environment
- Eliminate energy waste
- Save dollars for Roanoke College
- Protect our natural resources
- Achieve an “energy conservation culture”

Energy Hierarchy
